- React
- Bootstrap
- Tailwind CSS
- Responsive Development
- GitHub
- API Integration
- SEO (Search Engine Optimization)

## PROFILE

Enthusiastic aspiring Junior Front-End Developer and SheCodes graduate with a keen interest in crafting engaging web experiences. Self-motivated and dedicated learner, adept at creating beautiful, responsive and user-friendly interfaces. I'm passionate about problem-solving and have a strong work ethic from my SheCodes coding workshops training. I excel in challenging environments and always deliver high-quality solutions with great attention to detail. I'm a quick learner and eager to become a full-stack developer, constantly seeking opportunities to grow. Excited to apply newly acquired skills and knowledge to real-world projects in a collaborative team environment.

## EXPERIENCE

### WORLD CLOCK APP

- Developed using HTML, CSS and JavaScript featuring Timing Events, Date formats, and Time Zones management for improved functionality.

### ARTIFICIAL INTELLIGENCE POEM GENERATOR

- Developed using HTML, CSS, JavaScript and AI API Integration.

### REACT WEATHER FORECAST APP

- Created a web application using HTML, CSS, JavaScript, Bootstrap and Open Weather API.

### REACT DICTIONARY APP

- Built using HTML, CSS, JavaScript, Bootstrap and Dictionary API and Pexels API Integration.

## VOLUNTEER EXPERIENCE

### BIMPE TECHNOLOGIES LIMITED

**April 2024 - Present**

Developed and redesigned responsive website pages, enhanced functionality and collaborated with team on new features.

### EAST ANGLIA'S CHILDREN'S HOSPICES (EACH)

**May 2023 - May 2024**

Supported the team in daily operations, provided excellent customer service and ensured the orderly presentation of merchandise.
